## SURYADATTA PUBLIC SCHOOL UNIQUE NURTURING FORMULA

The Suryadatta Public School nurtures its children from day one. This nurturing is in the areas of values, life skills, community service and CSR activities. Creating a positive school climate based on strong relationships and involving children in all these activities provides bedrock for learning.

Apart from this, Vocational Education (VE) which is a significant component of the nation's education initiative as the National Policy on Education (2020) recognizes the vital role of Vocational Education. In sync with this policy, we provide our children vocational training by giving them exposure to different vocations such as fashion designing through organising shows and showcasing the talent of students in garment designing, Hospitality Management, Architecture etc.

Our uniqueness is also in the area of organizing Career Fairs which is an important event where our children find guidance and explore different streams of interests, gather the knowledge regarding their future career paths. The School invites industry experts who interact with children about diverse career options. With such job fairs students get exposure to different areas of career growth opportunities and also educating students on how to conduct their job search. We also prepare students for brief internships to understand the areas of their interest and to learn the work culture in organizations they intern with.
